| Fix | The tracked objects were incorrectly displayed for some APS-RS videos where many objects appeared at the same time. |

3 KNOWN ISSUES, RESTRICTIONS AND NOTES

| No. | Description |
|-----|--|
| 1 | In APS-M videos the range overlay (read area) may not be displayed correctly on sensors installed with a high pitch angle. |

4 TOOL COMPATIBILITY

The APS people sensor software will be continuously improved, and new features will be added. Thus the video player needs to be extended sometimes as well. However, we strive to keep the program backwards compatible to videos recorded with every older firmware version.
